REIMAGINED FROM THE GROUND UP,
THE ALL-NEW TOYOTA FORTUNER
IS A BLEND OF LUXURY AND CLASS-LEADING
OFF-ROAD CAPABILITIES.

Under the sleek new design resides a blue-blooded adventurer.
With off-road credentials second to none and a drive that needs to be experienced
to be believed, it’s time to re-examine what you think you know about the Fortuner
and discover THE LUXURY OF FREEDOM.
OPEN THE DOORS TO A WHOLE NEW LIFESTYLE

The all-new Fortuner has arrived—and it’s more luxurious than ever before.

Here is an SUV that’s got style, comfort, and capability combine to create a vehicle that looks as at home in the urban jungle as it does on distant mountain passes. With high-quality finishes you can both see and feel, a bold new grille, an elegant and impressive interior, extra storage, and completely redesigned engines—including a new 2.8-litre diesel and 2.7-litre petrol—there’s now the luxury to choose the perfect Fortuner to suit your lifestyle.

If you’ve been looking for a dynamic, fuel-friendly SUV that still delivers on torque, power and looks, then the new Fortuner is the answer.

THE LUXURY OF CHOICE

2.4 GD-6 4X2 | 2.4 GD-6 4X4 AT | 2.7 VVTi 4X4 AT | 2.8 GD-6 4X2 | 2.8 GD-6 4X4 | 2.8 GD-6 4X4 AT | 4.0 V6 4X4 AT

MODEL SHOWN
2.8 GD-6 4X4 AT
GET THERE IN STYLE

the incredible new engines available in the Fortuner will ensure you always have enough power to get there. And there are enough luxurious extras to make sure you get there in style.

Thanks to recent technological developments, the new diesel engines have a smaller capacity with higher torque. The new 2.8-litre auto engine has a torque of 450 Nm @ 1600-2400 rpm and a power output of 130 kW @ 3400 rpm, while the manual has a torque of 420 Nm @ 1400-2600 rpm and a power output of 130 kW @ 3400 rpm. Once again the driver is on the winning end, as these innovations translate into more than just better power, but lower fuel consumption too.

The petrol motor line-up has been expanded to include a new 2.7-litre petrol engine with a towing capacity of 2.5 tonnes, torque of 245 Nm @ 4000 rpm and a power output of 122 kW @ 5200 rpm. This petrol option operates off the new six-speed transmission, which has numerous advantages, including lower fuel consumption and a more eco-friendly drive.
What does the road ahead look like?

No matter where your travels lead, there are a range of options available to you. The choice is yours: 2x4, 4x4, six-speed manual or auto. And if you choose a 4x4, you can now easily switch between 4WD, 4WD LOW and 2WD with a flick of the wrist.

When on the open road, you're in for smooth sailing – the addition of the sixth gear in both the manual and auto options means the gear ratio spread has been optimised and cruising revs per minute have been lowered.

Engine sound has also been reduced, meaning a much quieter drive. Ideal for exploring the great outdoors. As part of this advancement, your first gear has been sharpened and shorter, which bumps up the take-off power and increases the pulling power – and might be better for towing. Not only does this mean an engine noise, it’s a way to better fuel economy – perfect for you and the environment.

For those who desire efficiency, Eco Drive Mode can be activated at the touch of a button. When the vehicle is being driven efficiently, the Eco Lamp on the Multi-Information Display will illuminate to let you know that you’re on the right track.

While moving up or down the gears, the new Intelligent Manual Transmission (iMT) anticipates your changes then matches the engine speed to the transmission speed, preventing jolts and sudden drops in speed after gears are changed, resulting in an even rev count, seamless shifting and achieving higher fuel efficiency.

The 2.4 and 2.7 litre models come with cruise control – perfect for trips out into the country, allowing you to sit back, admire the view and enjoy even longer stretches of road.

Only available on the 2.8 4X4MT.
No matter where you go and whatever the weather – mountain pass or overseas, torrential downpour or desert sandstorm – you’re always comfortable and in control in your Fortuner. Bumpy rides are history. Improved suspension offers more stability and better handling responses. The size of the shock absorbers has also been increased, giving you more comfort over small vibrations, and a repositioned lateral rod reduces movement when exploring rough roads.

But the advancements go much deeper than the upgraded suspension. At the core of the Fortuner’s off-road prowess is its frame. The entire frame structure has been redeveloped, improving torsional and bend rigidity, ensuring durability, drive quality, comfort and, most importantly, safety.

The Fortuner is equally at home navigating the tight turns of a steep overgrown path leading to a secluded cabin, as it is manoeuvring down a white-knuckle rocky descent.

Hill Assist Control (HAC) detects when you’re on a slope and automatically engages so that the vehicle doesn’t roll back. To prevent the wheels from locking up on tricky downhills in 4x4 models, the Downhill Assist Control* system takes control of the vehicle’s ABS, controlling brake pressure in situations when engine braking isn’t enough. To make sure you stay cool and in control, the radiator has been improved to balance the power of the new engines. This reduces the risk of overheating – no matter how severe the environment or how big the load being towed.

Towing capacity has been increased to a maximum of three tonnes, and when under load, Trailer Sway Control (TSC) suppresses movement between the Fortuner and whatever you’re towing, keeping you safe and in control.

*Only available on the 2.8 4X4MT, 2.8 4X4AT and 4.0 4X4AT.
Whether you’re gently crunching over imported gravel alongside manicured lawns, or blazing a path over rocks up a forgotten mountainside, with the Fortuner you will always arrive in style.

Sophisticated yet resilient. Defined yet powerful. From the 17-inch alloy wheels to the new grille, the Fortuner expresses the dual nature of today’s modern lifestyle. While the vehicle is still synonymous with unrelenting off-road superiority—and of course, quality, durability and reliability—its exceptional new style now also gives you the freedom to be seen and admired while out on the town.

With its new refined body there’s an unmistakable urban appeal to the latest incarnation of the Fortuner. A redesigned front grille gives it a more cosmopolitan look; the upper edges of the grille have an added curve with a steeper slant, making the front design even wider and more striking than before.
Towering above the grit and the grime, the high body axis gives you an elevated viewpoint. The design lines run over the flared front and along the doors to meet at the rear fenders. From any angle, the sculptured surfaces merge and change to create a seamless flow.

To light your way, the 2.4-litre and 2.7-litre Fortuner models have bi-halogen headlamps and fog lamps at the front, LED rear combination lamps and an LED high mount stop lamp at the back. These larger, stylish light clusters are augmented by colour-coded exterior mirrors.

On the 2.8-litre and 4.0-litre models, lighting is taken care of by LED headlamps in the bold new chrome grille, LED rear combination lamps, front fog lamps, striking daytime running lights and Follow Me Home lights for when you return to civilisation.

All vehicles have integrated exterior mirrors that are auto-retractable and electronically adjustable.
FIVE-STAR FREEDOM
Nothing evokes a greater feeling of freedom than space. Space to move. Space to explore. And of course, space to stow all of your gear. With boot capacity large enough to accommodate your riding tack, golf clubs or sailing togs, you'll have no hassle transporting whatever you need to enjoy the great outdoors. In the centre console of the standard and high-grade models, you'll also find a front cooler box, chilled to just the right temperature to store your beverages.

The 4-litre model is equipped with a power back door system that can be opened and closed electronically from the driver's seat or the wireless key. The power back door has a memory function, which allows users the option of storing an automatic stop position for each time the back door opens. And to ensure you and your passengers' safety, a jam protection function detects obstructions through changes in pulses from the motors when opening and closing the back door.
It’s like a luxurious coat of armour. Recent technological updates have resulted in an overall strengthening of the Fortuner’s frame. High-tensile strength steel sheets and supplementary materials have been incorporated throughout to improve safety. All together, these impact absorbing and high strength structures help reduce driver and passenger injuries. Newly installed ISOFIX seat belts ensure that the point of tension is relative to the impact, while the Anti-Lock Braking System (ABS) and Electronic Brake Force Distribution (EBD) act to stabilise the vehicle.

In an emergency, there are up to seven airbags. Driver, front passenger, curtain shield*, driver knee airbags* and side airbags* are activated depending on the situation. And, when in transit, Vehicle Stability Control (VSC) is there to minimise the chance that any of the above becomes necessary.

Safety is always a top priority for Toyota. The Fortuner comes equipped with a Push Start system. This starts the engine at the push of a button, ensuring that there is no lag in getting your vehicle on the road. Once you’re moving, Auto Door Lock is activated and locks the doors to prevent entry from the outside. To protect your most precious cargo, Child Lock ensures that there are absolutely no mishaps with back seat passenger door safety. On all models, anti-theft systems operate silently in the background. The anti-theft system features include an independently powered siren, an advanced immobiliser, as well as an ultrasonic glass breaking and movement sensor.

BEING SMART ABOUT SAFETY: THE LUXURY OF SAFETY

Equally at home under the stars as it is under big city bright lights, the refined elegance of the new Fortuner, that flows from the inside to the out, is immediately apparent. Everything has been carefully considered, from the bold, highly stylish design to the sophisticated technology incorporated throughout. The attention to detail is apparent. Thick metallic accents combine with wood grain-patterned ornamentation, which further expresses the vehicle’s personality. The overall design comes together to evoke a feeling of THE LUXURY OF SPACE. Once inside, passengers and the driver have ample room to stretch out and enjoy the sensation of comfort and prestige.

THE LAP OF LUXURY

The interior finishes are also of a superior nature. Stylish dark brown leather seats* are complete with intricate stitching detail. The doors on the standard and high-grade models are finished with a leather trim, while the base model is trimmed in fabric. The seats are in a 60:40 combination; with the added addition of a one-touch tumble slide rear seats. In keeping with the convenience of good design, these third row seats can be folded using one touch, making it easy to free space up for luggage or create a row of seats for extra passengers.

The steering wheel column can also be personalised: a telescopic function has been added so that the column can be moved to suit your driving style. From the driver seat, you can also keep an eye on the rear-view monitor so that you know exactly what is going on behind you.

THE CENTRE OF ATTENTION

Clean, slick and modern – the newly streamlined dashboard and centre console lights up with an audio and display operating system that’s guaranteed to get attention.

A new high-definition colour Multi Information Display has been added and has all the information you need. From frequently checked items such as internal temperature, speed and trip information, through to menu and display options. All MID content can be controlled via switches conveniently located on the steering wheel.

Bluetooth comes standard and across the range and the 4.0-litre model also includes a multi-media navigation system.

For passengers who feel like watching a movie or TV series, the 4.0-litre model delivers entertainment via a large 7” touchscreen DVD system that works off auxiliary and USB ports. Whether on a long road trip or stuck in gridlock, the hours will fly by in comfort.

*Available on the 2.8 and 4.0 litre models

THE LUXURY OF PROTECTION

Fortuner drivers share a passion for adventure and the beauty of the great outdoors. That’s why we’re dedicated to preserving the environment for future generations. The fuel-efficient engines of the Fortuner range help reduce CO2 emissions and the carbon footprint of the vehicles. Plastics that are highly-recyclable are used in the instrument panel, door trims and the majority of the interior and exterior components. The plastic components have also been uniquely designed so that they are easier to dismantle for recycling.

Toyota is serious about combating the problems associated with waste tyres in the country and at Toyota South Africa Motors we have taken up producer responsibility as defined by the Waste Management Act of 2008, ensuring that all tyres are collected.丰田南非洲私人有限公司通过采取生产者责任，以符合《废物管理法》2008年，确保所有轮胎被收集。

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Service will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to keep your Toyota genuine visit www.toyota.co.za/genuine

TOYOTA GENUINE PRODUCTS
For guaranteed fit and function, Genuine Parts are essential in maintaining the safety and reliability of your vehicle. Genuine Parts comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to Toyota Accessories, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Fortuner without compromising its safety features or warranty. Warranties are about peace of mind, and the Genuine Extended Warranty is designed to provide superior cover (up to 6 years or 220 000 km) and a seamless claims process thanks to full integration with Toyota systems. The Genuine Extended Service Plan also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 7 years or 200 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Fortuner by means of a full service history.

TOYOTA APPROVED SERVICES
Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. Toyota Quality Service not only promises accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of Accredited Body and Paint Repairers, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle’s pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, Toyota Roadside Assistance provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS
✔ UNCOMPROMISED SAFETY ✔ GUARANTEED QUALITY ✔ PEACE OF MIND

Download the MyTOYOTA App from the Google Play Store or the Apple iStore to receive the latest Toyota news, keep an eye on your vehicle’s finance and book your vehicle for a service. You can also book a test drive or arrange roadside assistance, all on your phone.
